"Several of our team members were crying because they knew there was not enough food for all of the kids and some would have to be sent away hungry. We began to pray that God would multiply the food..."

EDITOR'S NOTE: I love it when God reaches down and defies the very laws of nature that He set in motion—like multiplying food for hungry little tummies! Not convinced He still does that? Read on in this account of a miracle that happened just last week, watch the video too, then ask yourself... why not?! -Aimee Herd, BCN.

(Kaliti, Uganda)—Have you ever heard stories of food multiplying? We have read about them in the Bible but few have actually seen it happen. Have you ever wondered if it still happens today? Well, we saw it with our own eyes yesterday in Uganda! (Photo: ShowMercy.org)

We organized a feeding for 50 orphaned and desperately poor children in Kaliti Village, Uganda where our Field of Dreams project is located. Over 200 children showed up hungry! Several of our team members were crying because they knew there was not enough food for all of the kids and some would have to be sent away hungry. We began to pray that God would multiply the food.

EVERY child ate and was full...over 200 were fed an abundant feast!! Not only that, but every adult ate as well. There was so much food left over that they packed it up to take it home with them. We saw it with our own eyes! Please watch our two Youtube videos and forward them to your friends. Our team will also be posting their stories and pictures on our Facebook Fan Page. We have a passion for seeing the impossible and are careful not to exaggerate our experiences. However, we have to share this with you, because we saw it first hand. All of our team knows that something miraculous took place that day. God is good and He is doing amazing things through Show Mercy in Uganda. There are many stories we have not had a chance to share, but will be sending more updates as we get the time.

We invite you to be a part of this exciting time. As most of you know, we named our project "The Field of Dreams", because if you believe the impossible, the incredible WILL come TRUE. "If we build it, He will come!"
